

William H. Osborne

President and Chief Executive Officer

William H. Osborne, 50, is president and CEO at Federal Signal Corporation, a global designer and manufacturer of environmental and safety products and solutions that serve municipal, governmental, industrial and institutional customers. Prior to joining Federal Signal in 2008, Osborne was president and CEO of Ford of Australia. Previously, he was president and CEO of Ford of Canada. His earlier assignments included a variety of roles in product design, development and engineering. Prior to joining Ford Motor Company, he held positions at Chrysler and General Motors.

Osborne serves on the boards of Federal Signal Corporation and Navistar International Corporation. He is a member of the board of trustees of Manufacturers Alliance/MAPI, Inc. and a member of the Economic Club of Chicago. He also serves on the board of the Lyric Opera of Chicago.

Osborne received a Master of Business Administration degree from The University of Chicago, a Master of Science degree in mechanical engineering from Wayne State University and a Bachelor of Science degree in mechanical engineering from Kettering University.
