Sirit, a Federal Signal Technologies Company, Awarded Contract with Defense Logistics Agency

RFID labels and ribbons to be supplied for supply chain applications

Irvine, CA - May 26, 2010 - Federal Signal Technologies company Sirit Corp. ("Sirit"), a global provider of radio frequency identification ("RFID") technology, announced today that it has been awarded a contract with the Defense Logistics Agency ("DLA") utilizing passive Class 1, Generation 2 RFID labels. The DLA is the U.S. Department of Defense's combat logistics support agency. The maximum value of the contract is estimated at US\$2.7 million covering one year with two additional one year options. Sirit has passed stringent testing requirements conducted by the DLA and has begun fulfilling orders under this contract.

The contract calls for RFID labels which incorporate Sirit's EPC Class 1 Gen 2 compliant RSI-674 inlay. This inlay is a globally compliant product which offers proven performance in a broad range of applications. The passive RFID labels and ribbons will be deployed for internal and external tracking of materials at all Defense Distribution Center depots across the United States and overseas, with the goal of improving accuracy and speed of processing through the depots' automated Warehouse Management System.

"We are excited to have been chosen by the Defense Logistics Agency to fulfill their requirements for ISO 18000-6C RFID labels and ribbons," said John Freund, President of Sirit. "This is an important program for the government and we look forward to working closely with them in support of this initiative."

About Sirit Corp.

Sirit Corp. is a business unit of Federal Signal Corporation (NYSE: FSS), a leader in environmental, safety and transportation solutions. Sirit is a leading provider of Radio Frequency Identification (RFID) technology worldwide. Harnessing the power of Sirit's enabling-RFID technology, customers are able to more rapidly bring high quality RFID solutions to the market with reduced initial engineering costs. Sirit's products are built on more than 16 years of RF domain expertise addressing multiple frequencies (LF/HF/UHF), multiple protocols and are compliant with global standards. Sirit's broad portfolio of products and capabilities can be customized to address new and traditional RFID market applications

including Supply Chain & Logistics, Cashless Payment (including Electronic Tolling), Access Control, Automatic Vehicle Identification, Inventory Control & Management, Asset Tracking and Product Authentication. For more information, visit www.sirit.com.
