

# OUR ADVANTAGE

## The Industry Leading Liquid Vacuum Truck Solution

Our designs and equipment have been rigorously tested for over two decades in some of the world's toughest terrain conditions, harshest and remote environments, and most challenging applications. We offer the best and most comprehensive program to match our customers' load requirements with final roll-off vehicle weight. Plus, through meticulous engineering record-keeping and ongoing studies, we adjust our standard engineering programs to achieve precise weight distribution design specifications.

## Quality Control & Code Compliance

All our products are built under a controlled quality program that meets the criteria of the ASME Code for pressure vessels, DOT or TC certified as required for the application and destination of the product. Our quality department and engineering team work closely together when developing new configurations or optimizing existing designs, to ensure compliance.

# LVT LIQUID VACUUM TRUCK

Our industrial and municipal customers know what they want, and we're listening. The tough, durable LVT with its customer-inspired design is built with the superior quality and features required for liquid cleanup jobs. This unit can be ordered in a variety of configurations, including non-code liquid vac upon request. The LVT is Transport Canada 407, DOT412 and ASME Pressure Vessel certified for transportation of dangerous goods.

## STANDARD FEATURES

- 412 DOT
- TC407 Code Compliant Tank, Subframe, & Bumper
- Hydraulic Lift for Faster and More Efficient Clean Outs
- Mobile Grade Controls
- Vane Vacuum Pump
- Mounted Storage
- Customizable Paint

## POPULAR OPTIONS

- Epoxy Tank Lining
- Positive Grounding Systems
- Glycol Valve Heaters
- Diesel Blower Flush System

- Body Vibrator
- 20" Manway
- Ladder and Access Platform

### BASE MODULE

- Fruitland 870 Eliminator (501 CFM / 28" Hg )
- Fruitland 500 Eliminator (338 CFM / 28" Hg)

### TANK CAPACITY

- 70 BBL (2900 US Gallon) Debris Capacity
- 80 BBL (3300 US Gallon) Debris Capacity
- 90 BBL (3700 US Gallon) Debris Capacity

## Built For The Harshest Conditions

A subsidiary of Federal Signal, Westech has been manufacturing vacuum trucks for over three decades. We are a customer-focused, passionate team making rugged vacuum trucks tested in some of the world's most extreme conditions.

With years of in-field operator experience, Westech's team of experts can help you select the right configuration for your application.

## Scrubber Options

- (2) 500 lbs. Carbon Filtration Beds w/Temperature Gauges
- 125-Gallon Chemical Tank
- Water Spray Pump for Carbon Bed
- Large Carbon Bed Cleanout Ports
- Moisture Trap
- 3" Vapor Outlet
- Sample Ports Between Each Stage
- Temperature Gauges at Carbon and Chemical Tank
